PROPERTY DESCRIPTION

This beautiful farm is located in Harpersville, AL just off of US 280. Sun Valley Farms has tons of pasture for grazing and gardening. Extremely large barns to accommodate animals, feed and farming machinery. There's are covered areas for animals. Amazing views, with extensive pastures and very large buildings. There's a small pond with stunning views. The barn has a 1BR/1BA small Barndominium style living area that has all that is needed. Small but cozy. This is a golden opportunity if you are looking for a farm or acreage with living quarters. Very nice property and the entire farm is still operating and ready for it's new owner. Could also bring potential income and accommodate someone caring for the farm. This is a RARE find and opportunity.
